BOLIVIA

INVESTIGATOR MEETINGS

In March, a series of investigator meetings were held in Taiwan, Bolivia, Colombia, Peru and Korea, with overwhelming positive response. Hospitals in China, Chile and Australia have commenced recruitment of patients. The United Kingdom has received central approval and site approvals for protocol version 3.0 are in progress. Singapore and Hong Kong are awaiting site approvals. Vietnam is awaiting central approval. Colombia is awaiting regulatory approval. Further meetings that will help to promote ENCHANTED are being planned in Thailand, India, Sri Lanka, Brazil and Europe in the second half of the year.
